

Hi! My name is Debbie Raine. I have lived in The Hamptons for over 10 years. I was born in Philadelphia, Pa. I spent most of my life in South Jersey. I am a loyal Eagles fan.

For the past 30 years I have spent my work life sitting at a desk in front of a computer, with a headset on. Ten years ago I retired from Verizon after 20 years of service. Currently I work part time for Eagle Pharmacy. I have been working there for 10 years. At Verizon my job started out as a customer service job. By the time I retired it was a very stressful sales position. My job at Eagle Pharmacy is definitely a customer service position. I help people get the meds they need when they need them.

Before those two jobs I have done many different things. I have never been afraid to work. I have worked in retail. I have worked for a public accountant and a CPA firm. I was also a self-employed accountant for several years. I have a degree in accounting from Rosemont University. Throughout my life I have also cleaned houses and offices. There was a time when I was a field hockey ref. One of my favorite jobs from my past was working in a second grade classroom. I was an aide. I helped children who were falling behind in math and reading, It was very rewarding. Most of my life my jobs involved helping people either on the phone or face to face.

Over the years I have volunteered in different organizations. I have taught CCD classes for kindergarten. For several years I was a PTA president. When no one else was available to be a cheerleading coach I stepped up to do it. I have run fundraisers such as Fashion shows and candy sales. When I was at Verizon I was a union rep for several years. Currently I am involved in activities in my church. I enjoy participating in activities in The Hamptons on my days off.

One of the reasons I am volunteering for the HOA is I believe you don't have the right to complain about something if you are not willing to put in the time with an organization to help solve the problems.
